

**Gloucester County EMS  
Rowan University EMS  
Clinical Education Symposium  
2020 Agenda**

Sunday June 14, 2020

Log in 0700-0800  
(WebEx)

**Sunday Morning Presentations**

**Common Orthopedic Injuries**

**Dr. Bruce Monaghan**

Orthopedic Surgeon Inspira Healthcare System

*Dr. Monaghan will present assessment tips for common orthopedic Injuries as well as their out-of-hospital and in-hospital treatment. He will follow several case presentations from the injury occurrence, through the prehospital assessment/treatment, into the ED and onto final disposition*

**8:00AM - 9:00AM**

**1.0 NREMT Local or State Component**

---

**Renal Insufficiency, Dialysis and Emerging  
Dialysis at Home**

**Dr. Ashul Kumar**

Medical Director for Dialysis Inspira Healthcare System

*Prehospital providers often encounter dialysis patients during their dialysis treatments and in their homes. An understanding of the pathophysiology of renal insufficiency and dialysis treatment process provides the EMS provider the knowledge set to provide an appropriate assessment of a dialysis patient, with special attention to the dialysis site. Dr. Kumar will also review the emerging number of patient who now receive renal dialysis in their homes and the potential hemorrhage risks that accompany this new treatment modality.*

**9:00AM - 10:00AM**

**1.0 NREMT Local or State Component**

---

**NJ Office of EMS Update**

**Timothy Seplaki**

Office of Emergency Medical Service NJ Dept of Health

*Mr. Seplaki will discuss the "5 Minutes to Help" education and outreach program aimed at response to potential opioid patients and providing recovery resources to these patients. He will also provide updates on current processes and programs at OEMS as well as give us a glimpse into the future of OEMS and New Jersey EMS.*

**10:00AM - 11:00AM**

**1.0 NREMT Local or State Component**

---

**EMS Stroke Update**

**Dr. David Roshal**

Medical Director of Stroke Services, Jefferson Health NJ

*Stroke is a leading cause of morbidity and mortality in the United States and requires prompt recognition by prehospital providers to ensure rapid transport to an appropriate receiving Emergency Department/Stroke Center. Stroke can present in a variety of different ways, some more readily apparent than others. Dr. Roshal will review the prehospital assessment, including current stroke scales in use, destination determination, ED notification and in-hospital treatments. EMS case studies will be included.*

**11:00AM - 12:00AM**

**1.0 NREMT National Component: Cardiovascular: Stroke**

---

**Gloucester County EMS  
Rowan University EMS  
Clinical Education Symposium  
2020 Agenda**

Sunday June 14, 2020

**Sunday Afternoon Presentations**

**Sepsis Almost Killed Me**

**Ed Moreland, BA, NRP**  
General Manager, Ambulnz-P

*Sepsis kills thousands of patients annually, and as EMS providers we have an opportunity to identify sepsis and Systemic Inflammatory Response Syndrome (SIRS) patients and begin treating them early in order to prevent septic shock. What about when we fail to recognize SIRS and sepsis? Review the case of a paramedic who became septic because they failed to pay attention to their symptoms and not advocate for themselves.*

**12:00PM - 1:00PM**

**1.0 NREMT Local or State Component**

---

**Assessment & Treatment of Seizures**

**Dr. James Baird**  
Emergency Medicine Physician, Inspira Health

*Dr. Baird will discuss the presentation, pathology, assessment and treatment of seizures. Included will be a review of popular seizure control medications and a discussion of new onset seizure occurrences.*

**1:00PM - 2:00PM**

**1.0 NREMT National Component: Medical:  
Neurological Emergencies – Seizures**

---

**Don't Become a Social Media Statistic**

**Richard Huff, NREMT-B, MS**  
Atlantic Highlands First Aid & Safety Squad

*Social media is a valuable, and critical, tool for EMS organizations to use for communicating in good times and bad. Being on social media is a must these days. But with that comes real risks. Every day, it seems, a first responder ends up in a pickle because of social media. One errant tweet can sink cause an organization incredible headache. One bad tweet can also sink a career. With the ease of use, no one is immune to social media mistakes. This class will provide attendees with an easy-to-use framework for the safe use of social media platforms – including Twitter, Facebook, and more.*

**2:00PM - 3:00PM**

**1.0 NREMT National Component: Operations:  
Culture of Safety / EMS Research**

---

**Current Coronavirus (Novel – 19) Update for  
New Jersey**

**GC Health Department**

*The most current information regarding Coronavirus preparedness and response in New Jersey will be reviewed with an emphasis on prehospital patient assessment and screening, including 9-1-1 call intake. Symptomology and a review of appropriate PPE use as well as donning and doffing will be included.*

**3:00PM - 4:00PM**

**1.0 NREMT National Component: Operations:  
EMS Provider Hygiene, Safety, and Vaccinations / At-Risk Populations**

---

**All attendees MUST complete a quiz for EACH session to receive CEU Credit**
